

Dear Skålleagues,

Since 2023 until now, I've acted as a co-chair in the Sustainability Committee. I have worked on multiple sustainability related projects with Skålleagues all over the world. I look forward to continuing on the Sustainability committee next year as well.

My favorite project is the "Sustainability Champions Network", which I intend on taking to the next level during 2026. The success can easily be measured by the number of European Champions from various European clubs.

I am also available to assist Skål Europe in any task, which is regarding to the position of Secretary. I believe this will be defined during or after the Skål Europe AGA. I look forward to achieving the designated goals, initiatives etc.

I am open for more detailed information, if needed.

Thank you for your time and consideration.

Sincerely,

Ville Riihimäki
